

Inspiring Changemakers:

Year 3 have been inspired by the book, Leaf, to write persuasive leaflets about looking after the environment. Priya's is called, 'The Animal Savers'. She is encouraging people to do beach cleans to ensure that the environment is safe for all the wildlife. Priya and Paisley are adding questions in their writing to engage the reader. Excellent work girls, what inspiring changemakers you are!

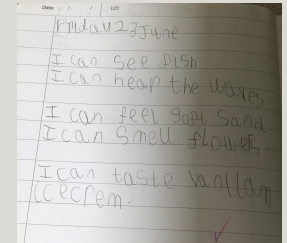

Community updates:

This week The Book Fair arrives in school! There is a wonderful selection of books and we can even accept card payments this year. The more books we sell as a school, the more money we raise to buy books for the library - I have lots of recommendations from the children already. Looking forward to next term, we have two visiting authors as part of Appledore Book Festival coming to St Helen's. Tom Palmer will be talking to KS2 and John Townsend will be speaking to Reception and KS1.

Key learning this week:

Reception have been writing some fantastic poems inspired by their trip to Westward Ho! last week. Have a look at Taylor's amazing writing!

What's new?

We have lots of lovely new graphic novels in the library with more to come! The boys in Year 2 would like more football and thanks to Harry in Year 6 donating his collection we have a lot more for everyone to read.

In Year 2, Pete the Badger has been tidying up too much - I didn't even realise that was a thing until James explained. James told me that Pete the Badger had been cleaning up the woodland floor so much that the animals didn't have anywhere to live. James said the best bit was when Pete realised He had made a huge mistake.
