

Inspiring Changemakers:

What a wonderful residential Year 4 had this week. They spent the day at the Ultimate Adventure Centre, developing the character virtue of courage. Every single person completed the ropes course and they had great fun on the aqua challenge.

After a busy day we all walked back to make pizza, make smores and camp in the Wilderness. A very big thank you to Mrs Larque, Mrs Fidler and Mrs Barkwill for making the experience a reality and a special mention for Robin, Sonny, Oliver W and Paige for being fab KPs during breakfast service. A massive thanks also to Ellsie's family for bringing their dog and duck show - it was great fun!

A final thank you to the Y6 Skill Builders, Mr Brown and Mr King who erected and struck the tents. Great job!

Community updates:

We were delighted to welcome the team from the RNLI who visited to support our understanding of how to keep safe in the water over the coming summer months. We learned about the meaning of the different flags, what to do if we are caught in a rip and all about the equipment the lifeguards use to help keep us safe. A big thanks to these community heroes for all they do!

What's new?

A huge thank you to the Margaret Lomas Foundation for so generously agreeing to provide funding to enable sports enrichment to go ahead over the summer term. Transport costs are prohibitively expensive at the moment and we are, as ever, incredibly grateful for their support of our lovely children.

Key learning this week:

We have some fabulous core texts being studied around school, all of which support and enhance the wider curriculum. In Reception, the children are reading *The Naughty Bus* and in Year 1, the learning is centred around *The Storm Whale*. Year 2 are reading *It's a No Money Day* while Y3 are focusing on explanation texts using *Until I Met Dudley*. Year 4 and 5 are writing biographies, with Year 4 reading *The Queen's Token*. Year 6 are reading *Where the World Turns Wild* as they had all already read the book Mrs Fidler and Mrs Barkwill had planned for them! That's the right kind of problem to have - well done Year 6!
