

## Inspiring Changemakers:

Children in Reception have spent time over the last couple of weeks researching the types of birds that like to visit our school grounds. We worked together to create bird food kebabs last week and this week we took part in the RSPB Big Bird Watch and surveyed the birds that we could see.

The children have loved getting outside, listening to the bird song and learning to identify a range of different birds.

## Community updates:

FOSH will be hosting a free entry 'Pal-entines' disco on Tuesday 11th February. Reception and KS1's disco will run from 4:00 - 4:45pm, followed by KS2's disco from 5:00 - 5:45pm. There will be a tuck shop during the discos so children are welcome to bring along some pennies!  
Thanks to the FOSH members for their hard work in organising this lovely event for our children!

## Key learning this week:

Through the exciting process of making coleslaw, Year 2 pupils have been enhancing their design and technology abilities, gaining valuable practical experience in food preparation while emphasising the importance of healthy eating.

## What's new?

Phoebe cooked a delicious meal for the children to enjoy on Wednesday to celebrate Chinese New Year.

Staffing update: there will be changes to staffing in Reception, Year 2 and Year 5 after February half term. If you have a child in any of these classes, a separate letter will be emailed to you.

Year 3 had a fantastic time immersing themselves in history during their Roman Day: dressing up, designing mosaics and creating coil clay pots. Thank you to Mrs Larque for creating such an exciting day!
