Mrs Fidler 22.05.25

Inspiring Changemakers:

Year 4 had a fantastic start to their residential trip with a fun day at the wake park. They tried paddle boarding and enjoyed balancing on the water. Then they had lots of fun riding the doughnuts, speeding across the lake. The inflatable assault course was a big hit, with everyone jumping, climbing, and splashing around.

After a fun day, Year 4 enjoyed a picnic tea, eating and chatting with their friends. Then they watched a movie together or the football. Afterwards, they went camping under the stars. Thank you Mrs Gagg, Mr Brown and Mr Kent for providing this amazing experience.

Community updates:

We would like to say a huge thank you to all of our wonderful volunteers who have helped this term. Whether you've supported reading, joined us on trips, or helped with classroom activities, your time and effort have made a big difference, and we are so grateful. A special thank you also goes to FOSH, who work so hard behind the scenes to organise fantastic events and fundraising activities that benefit all the children. Your support is truly appreciated!

Key learning this week:

Year 3 had a brilliant time on their residential trip to The Big Sheep. They enjoyed seeing the animals and taking part in lots of fun activities. They also had a tasty lunch together, which gave them energy for even more fun in the afternoon.

What's new?

We have a new system, Arbor, for booking clubs and school dinners. Miss Hall has emailed out an easy to follow 'how to' guide so that everyone can long on. Thank you to everyone who has promptly signed up and is using the system. We hope that everyone will find it much easier to use.

In the evening, Year 3 were treated to a fabulous dog and duck show from Farmer Chris. Everyone loved watching the clever dog work with the ducks, and the children even had a go at herding the ducks themselves, guiding them through fun obstacles. After all the excitement, they watched a film together and then camped out in the classrooms for the night.
